FOR IMMEDIATE RELEASE:

Auburn - A water main replacement project will take place along Fulweiler Avenue beginning next week (April 10), weather permitting, the Placer County Water Agency has announced.

The work includes the installation of 711 feet of new 8-inch pipeline between Highway 49 and Carson Avenue, which is about halfway to the Placer County Government Center.

PCWA project manager Rick Lund said the work will require traffic controls and some delays and will limit public parking along Fulweiler Avenue. Completion is scheduled by early June.

The \$239,000 project will replace an old, leaking water line and is partially funded through a Prop. 13 Urban Water Conservation Grant from the state Dept. of Water Resources. The contractor is Hudson Excavation of Fairfield and a full-time PCWA inspector will be on the job.

Lund said nearby property owners have been notified by mail. Anyone with questions about the water project may call the PCWA Business Center at 823-4850.
