

POINT OF USE HOT WATER HEATER REBATE PROGRAM REQUIREMENTS

Rebates are being offered for every Point of Use (POU) hot water heater installed.

PCWA defines Point of Use hot water heaters as devices that are placed under a sink to bring instant hot water to the faucet. Normally these are 2-3 gallon devices and are mostly plugged into an outlet.

Rebate Eligibility Requirements:

1. You must be a treated water customer of PCWA. The POU must be installed at the service address listed on the application.
2. The effective date of the rebate offer is to be determined.
3. Rebates are not available for the replacement of an existing POU with another new POU.
4. New construction is not eligible for a rebate under this program.
5. Total rebate amount will not exceed the amount paid for the device.

Follow these steps to receive a rebate:

1. Purchase and install a new POU within 45 days of the receipt of the application.
2. Complete and sign the application form.
3. Attach original dated sales receipt or installation invoice from a licensed contractor. If you would like the original receipt returned, please include a self addressed, stamped envelope with the application form. The rebate will not be processed without the original sales receipt or installation invoice.
4. Send completed form to:
